

2026-2028

FSPHP Board of Directors Statement of Interest

Name: Emily Doyle MD

Title: Medical Director

Organization: Texas Physician Health Program

Board Position on the 2026 – 2028 Ballot: Western Region Director

Why do you have an interest in serving on the FSPHP Board of Directors as a Board member or officer?

I want to advance the mission of FSPHP to support the state PHPs in providing trustworthy advocacy for the safe rehabilitation and return to work of healthcare professionals who have faced personal health and substance use challenges. Having directed the TXPHP for the past few years, I've come to appreciate the life-changing effects a PHP can have on individual clinicians and whole institutions. I've also come to appreciate the many challenges we have as a PHP in doing our best work. I'm grateful that with FSPHP I am not facing these challenges alone. By contributing to the effort on a national level, I foresee a greater effect size for my effort. An improvement in any of the state PHPs will improve the reputation of and public trust in all PHPs.

What is your vision for the next 2-3 years for the organization? (Please include any thoughts on objectives for accountability, consistency, and excellence measures, as well as funding initiatives.)

While state PHPs vary in their construct, finances, and legal obligations, there is both opportunity and great value in developing more consistency between programs. The more aligned our philosophies, vocabulary, and processes, the more effective our group efforts will be in advancing FSPHP's vision to improve the health of the medical community and patients they serve.

What skills do you bring to the organization?

I have experience serving or chairing various educational, clinical, ethical, and professional committees. I have worked on the development of UME, GME, and CME programs, including serving on the FSPHP Program Planning Committee for the past two years. I'm a decent talker and a better listener who cares deeply about deep causes but doesn't take herself too seriously.
