The FSPHP would like to invite you to attend The FSPHP 30th Anniversary Conference: Leading the Way in Physician Health. Our annual conference is attended by over 250 state physician health program administrators, care providers, and allied health professionals dedicated to the mission of the FSPHP and its member state programs. This is a unique opportunity to network with professionals dedicated to issues of physician well-being, including the treatment of substance use disorders and mental illness facing physicians and other licensed healthcare professionals in the United States, Canada, and other parts of the world.

The FSPHP is a nonprofit corporation whose purpose is to provide a forum for education and exchange of information among state physician health programs; to develop common objectives and goals; to develop guidelines; to enhance awareness of issues related to physician health and impairment; to provide advocacy for physicians and their health issues at local, state, and national levels; and to assist state programs in their quest to protect the public. Our mission is to support physician health programs in improving the health of medical professionals, thereby contributing to quality patient care.

WHO SHOULD ATTEND
The program is designed for health care professionals and physicians of all specialties, physician assistants, attorneys, physical therapists, case managers, nurses, licensed social workers, toxicologists, scientific researchers, and clinical coordinators who partner with Physician Health and Health Professional Programs to improve physician and healthcare professional well-being.
